Dynapro Slide System

New generation of undermount slides

Dynapro, the new undermount slide system from Grass, has taken the market by storm. Touted as the best concealed undermount slide in the market, Dynapro offers a high load carrying capacity, 3 dimensional adjustment option for perfect alignment and a synchronized movement that allows the drawers to operate without a sound. Available for 5/8" and 3/4" drawer material, longer lengths and heavy duty carrying capacity. Dynapro offers a low pull force and a soft-close action provides a smooth gentle stop.

Dynapro, the new generation of undermount slides for wooden drawers, combines intelligence, function, and comfort.
